Yellow Belt Training

MSME TDC PPDC, AGRA

MSME Technology Development Centre, Agra is Pioneer in the field of Lean Six Sigma Training & Consultancy Services. This Centre is organizing Lean Six Sigma Yellow/Green/Black Belt Training at National level for MSMEs, Corporates, Individual Working Professionals, Engineering & Management Students. The Centre has so far trained more than 10,000 Entrepreneurs, Professionals & Students by well qualified and experienced Trainers.

Program Content

The course covers the basic fundamentals of Six-Sigma methodology and the application of the different tools and techniques for specific problem & process improvement. The course is designed specifically for entrepreneurs in such a way that they can easily understand the concept of the Six Sigma methodology for implementing in their respective Business organizations.

Lean Six Sigma Yellow Belt Training

Lean Six Sigma Yellow Belt is an introductory course in Six Sigma Certification. The course is designed specifically for Entrepreneurs & working professionals to give them basic knowledge of Six Sigma Methodology along with concepts, tools & techniques. Lean Six Sigma focuses on Defect/Failures/ Error Reduction, Yield Improvement, Higher Profitability & Improved Customer Satisfaction in any business organization. The Programme includes examples & case studies.

Lean Six Sigma is very important Quality Management tool applicable to all types of business, Manufacturing or Service sectors to reduce wastages, to increase productivity and to reduce the cost of operations leading to increased Profitability, Customer Satisfaction & Retention.

This course is also helpful to students & Individual Professionals from career point of view as every organization wants to implement Lean Six Sigma Techniques in anticipation of improving market penetration, customer satisfaction and at the same time reducing cost of doing business.

Intended Target Group:

- ✓ Entrepreneurs & Working Professionals from Manufacturing & Service Sector
- ✓ Professionals involved in process control, quality and improvement.
- ✓ Engineering & Management Students, Teachers & Research Scholars
- ✓ Aspirants for Lean improvement, waste reduction, production and service efficiency
